Spring 2017 Tree, Shrub and Plant Sale now in full bloom

As part of the Green Macomb initiative, the Macomb County Department of Planning & Economic Development is working with the Sanilac/St. Clair Conservation District to bring a new Spring Tree, Shrub and Plant Sale to Macomb County residents.

Historically, the spring sale has been geared toward rural and agricultural communities, selling smaller trees in larger quantities. Through the efforts of Green Macomb and the Sanilac/St. Clair Conservation District, this year's sale provides an opportunity to buy smaller quantities of slightly larger tree stock for residents and businesses in more urban and suburban areas of the county.

Planting trees provides many benefits including increased property values, cleaner air and water, lower energy bills, more attractive neighborhoods and healthier communities. This sale's plant selection is specifically tailored to provide these benefits and increase local community tree canopy.

The public has the opportunity to purchase young bare-root trees, fruit trees, flowering shrubs, native pollinator wildflower seeds, fruits and vegetables at very low prices. To place an order, download the order form at Green.MacombGov.org and mail the completed form with payment to the St. Clair Conservation District office by Thursday, April 6.

Orders will be available for pickup at Freedom Hill County Park during Macomb County's Arbor Day celebration from 10 a.m. to 4 p.m. Friday, April 28 or from 9 a.m. to 1 p.m. Saturday, April 29. Orders will be filled on a first-come first-served basis as supplies may be limited. Remaining unsold stock will also be available for purchase on-site. Michigan State University Extension and Sanilac/St. Clair Conservation District representatives will be on hand to answer questions and provide planting guidance and tree care advice.

Visit Green.MacombGov.org for more details about the sale and forthcoming information about Macomb County's Arbor Day celebration at Freedom Hill County Park April 28.
