

September 16, 2022

To the Board of Trustees of the  
Township of Bruce  
Macomb County, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Bruce (the Township) for the year ended March 31, 2022. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated July 11, 2022. Professional standards also require that we communicate to you the following information related to our audit.

### Significant Audit Findings

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Township are described in Note 1 to the financial statements. No new accounting policies were adopted, and the application of existing policies was not changed during the fiscal year ended March 31, 2022. We noted no transactions entered into by the Township during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements of the governmental activities were:

Management's calculation of the percentages for current and noncurrent compensated absence payments is based on the historical trend of employees' use of compensated absences.

Management's estimate of the net post-employment benefit liability and related deferrals are calculated through an actuarial study which utilized data provided by the Township and certain actuarial assumptions.

The Township's investments in joint ventures are based on the most recent and available financial statements for the Romeo, Washington, Bruce Parks and Recreation Commission and the Washington and Bruce Senior Transportation through Advanced Reservation Commission. The most recent and available financial statements for these entities are as of and for the year ended March 31, 2021.

The most sensitive estimate affecting the financial statements of the governmental activities, business-type activities, Sewer System Fund, and Water System Fund was:

Management's calculation of depreciation expense for the current period is based on an estimate of the useful lives of the capital assets.

The most sensitive estimate affecting the financial statements of the governmental activities and the Advanced Life Support Fund was:

Management's calculation of ambulance revenue and receivable for the current period is based on the current period collections from the prior month.

We evaluated the key factors and assumptions used to develop these accounting estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

#### *Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### *Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

#### *Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

#### *Management Representations*

We have requested certain representations from management that are included in the management representation letter dated September 16, 2022.

#### *Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Township's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

#### *Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Township's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

### Other Matters

We applied certain limited procedures to the management's discussion and analysis, budgetary comparison schedules, and the schedules for other post-employment benefits, which are required supplementary information (RSI) that supplement the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the combining nonmajor and fiduciary fund financial statements, which accompany the financial statements, but are not RSI. With respect to this supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

### Restriction on Use

This information is intended solely for the use of the Board of Trustees and management of the Township of Bruce and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

*Maney Costerian PC*
